

Dan Mor
TRM-Instructor

„Is our goal becoming a new, a better, or even a „perfect“ human being? – No, never! Living means learning – und loving. It entirely suffices for us to let go of the illusions about ourselves and about life... And to wake up to our own Truth!“

The System of Three-Rays-Meditation is brilliant and has helped me 1000s of times, tangled up in what seemed like a helplessly chaotic world, but is in fact based on a highly evolved order, to find once more back onto my path.

It fills my heart with joy to be able to pass this gift on to other seekers! May the Goddess bless you!

The Wonder of Three-Rays-Meditation

Spiritual Healing
Enlightenment & Realisation
Mystical Self-Experience

NOW AVAILABLE IN THE UK!

Three-Rays-Meditation

Miracles for your every-day life!

Three-Rays-Meditation is ancient.

In old times, it was practiced in the temples of the Great Goddess, for healing purposes and for personal growth. This system of energy work is excellently suited for:

- Meditation
- Self Healing
- Clearing of Self-Perception
- Physical Invigoration
- Cleansing of Body & Mind
- Trouble-Shooting
- Spiritual Growth
- Mystical Encounters

Traditionally, the spiritual powers of TRM were ritually passed on to pupils during special times of initiation, together with profound knowledge on how to use them wisely. Nowadays, the modern seminar culture is best suited to fulfil these functions. All energetic attunements are lasting.

What's so special about the TRM is...

...the combination of meditation in the closer sense and working together with Beings of Light, like Angels. The Arch Angels make spiritual powers available for the meditator in a way that strongly enhances the benevolent effects of Meditation & Healing.

Personal Responsibility, Love and Consciousness...

...are the corner pillars of any kind of holistic spiritual growth process, the basics of finding one's own truly divine will and of gaining clarity about one's own spiritual identity.

Healing with TRM

Spiritual Energy Work!

From the Periphery to the Core of Being.

Many people's lives take place mainly on the Exterior, and they don't know their own Inner Life. Consequently, they cannot relate to their own true needs, their actions resulting in auto-destructive patterns of behaviour. This way of living creates diseases, which then diminish life quality further, in all parts of their life. By using TRM tools many of those destructive tendencies can be reverted.

Some of the many benefits for health & psyche are

- Relaxation / Deep Relaxation States
- Stimulation of the Immune System
- Natural Anti-Aging
- Vitalisation
- Pos. Influence on Depressive Tendencies
- Promoting Sexual Power & Libido
- Stronger Vitality & Will to Live
- Dealing Constructively with Relationships
- Healthy Willingness to Perform
- And many more.

The mere technical use of the methods is embedded in spiritual & philosophical Contemplation of the Cosmic Order, Nature and her life processes, Psychology and Knowledge of Aura / Chakra Theory, as well as practical life-style.

Practicing TRM is not bound to any kind of belief or religion, welcoming all humans...

Please, also take notice of my other seminars!
